GENERAL EXODUS OF MEMBERS BEGINS AS CONGRESS ADJOURNS

They Hasten Homeward to Rest or to Take Part in the National Political Campaign
HAS BEEN A FULL SESSION
President Gives Notice Remainder of Railroad Programme Will Come Up Next Session
SEVERAL BILLS GO OVER

Kitchin Describes Session "Eventful and Epoch-Making"
Washington, Sept. 8.—Adjournment of the first session of the 64th Congress at 10 o'clock this morning without a hitch in the plans of Senate and House leaders was quickly followed by a general exodus of members hastening homeward for rest or the National political campaign.

While the closing saw the administration legislative programme mainly completed, some things wait to be continued at the winter session, notably the remainder of the President's programme of railroad legislation which was partially enacted to prevent the threatened strike.

President Issues Statement
In a formal statement President Wilson, speaking of the work of Congress, gave notice that the remainder of the railroad programme would be presented at the next session. His statement was as follows:
"A very remarkable session of Congress has just closed, full as all recent sessions of the Congress have been of helpful and humane legislation which constitutes contributions of capital importance to the defense, the economic progress and the wholesome life of the country."

"It is to be regretted that the session could not have continued long enough to complete the programme recently with regard to the accommodation of labor disputes between the railways and the employees, but it was not feasible in the circumstances to continue the session any longer and therefore only the most immediately pressing parts of the programme could be completed. The rest, it is agreed, has merely been postponed until it can be more maturely deliberated and perfected. I have every reason to believe that it is the purpose of the leaders of the two houses immediately upon the re-assembling of Congress to undertake this additional legislation. It is evident that the country has been relieved of the anxiety which must have been created by recent events with regard to the future accommodation of such disputes."

WHEAT PRODUCTION LOWEST SINCE 1900

Acres Yield in Combined Winter and Spring Crops Estimated Smallest in 23 Years
NOT ENOUGH FOR HOME USE
Government Forecasts Production of Only 81,000,000 Bushels—Other Cereals Crops Will Also Be Cut Short.

Washington, Sept. 8.—Heavy damage to the country's cereal crops during August caused a loss of many millions of bushels in prospective production, cutting down the outlook for wheat to below the amount required for home consumption. The Department of Agriculture's monthly forecast, issued today, estimates the wheat crop at 81,000,000 bushels, 9,000,000 bushels less than is calculated to be necessary for domestic use. A carry-over of approximately 160,000,000 bushels of old wheat from last year's record breaking crop, however, will make up the deficiency and leave something like 100,000,000 bushels available to supply the heavy demands of foreign nations for American wheat.

WILL BROADEN USE OF THE MAIL CENSORSHIP

England to Use Data in Fight For Commercial Supremacy

This is Seen in a Statement By David Lloyd George, the War Secretary, in the Lower House of Parliament.
Washington, Sept. 8.—Extension of the British mail censorship from its original purpose of destroying all trade to or from Germany to the field of providing data for Great Britain's fight for commercial supremacy is seen here in admissions made by David Lloyd George, the war secretary, before Parliament, just received in full in this country. Lloyd George said:
"It is the practice to communicate to other departments concerned any information on matters of public interest which may be obtained through the use of cable dispatches to the United States. As the particular department may consider advisable. . . . The government is perfectly within its rights in using any information which comes to it by these conditions for any public and national purpose."

RUMANIA IS SCENE OF GREAT BATTLE

Russo-Rumanian Forces and Armies of Central Powers Engaged Along 70-Mile Front

SEVERAL TOWNS CAPTURED

Battle Line Extends From the Danube to the Black Sea in Southern Dobruja—Further Withdrawal of Austrians.
Rumania, which entered the European war less than two weeks ago, now is the scene of a great battle between Russo-Rumanian forces and armies of the Central Powers. The southern part of Dobruja, or eastern Rumania, has become a fighting ground and the opposing armies are engaged from the Black Sea to the Danube along a front of about 70 miles.

Bulgarian and Turkish troops, advancing along the Black Sea coast, have occupied Baljik and two other seaports, Sofia reports, and the fortress of Dobrich, or Bazardjik, 50 miles southeast of Bucharest, has been taken by a combined Bulgar-German force. The armies of the Central Powers have not yet crossed the Danube, all reports agree.

ENGINEER AND FLAGMAN ARE KILLED AT BILTMORE

Their Train Is Struck by Run-Away String of Coal Cars.
Asheville, N. C., Sept. 8.—Ben Enloe, engineer, and Fritz Pitts, flagman, were instantly killed at Fairview crossing, just beyond Biltmore station tonight when their train, backing in toward Biltmore, was struck by a runaway string of cars, loaded with coal which had broken loose at the Buena Vista hill, three and a half miles further on. Engineer Enloe was backing a work train into Biltmore and Flagman Pitts was on the engine with him when the runaway cars caught up with them and smashed into their train on a small bridge. Engineer Enloe was buried beneath an avalanche of coal and his body has not yet been recovered. Flagman Pitts was found shortly after the wrecking crew arrived. The track will hardly be cleared before some time tomorrow morning. Two other men were slightly injured.

TWO RUSSIAN EXPEDITIONS MISSING FOR FOUR YEARS

Given Up As Apparently Lost in the Polar Regions.
Ottawa, Ont., September 9.—Two small Russian expeditions which have been missing in the Polar region have been given up as apparently lost by the Russian government. Canada, it was announced here today, has been asked by Russia to make public the fact that these two expedition parties sent out by the Arctical Society in 1912 for the study of conditions in the Russian Far North, have not been heard from for four years. The expeditions were headed by K. A. Rusanoff and Lieutenant H. Husloff.

DR. R. H. VON EZDORF DEAD

Noted United States Surgeon Died Yesterday at Lincoln, N. C.
Lincoln, N. C., Sept. 8.—Dr. Rudolph H. Von Ezdorf, surgeon in charge of United States Marine hospital at New Orleans, and for the past six months in the government health service, died here today. Dr. Ezdorf, who was widely known for his investigations into the causes and cure of malaria, typhoid and yellow fever, was at various times in charge of the quarantine station at Savannah, Havana and Quarantine, La. He was born in Pennsylvania 43 years ago and leaves a widow and 4 daughters. The Countess of Olga, of Austria, during the past six months he supervised federal malaria and mosquito survey work in eight Southern states.

REFUSE TO ADOPT PARTISAN POLICY

Woman Suffrage Association Reaffirms Position as to National Political Parties

RESOLUTION IS DEFEATED

Measure Which Would Have Placed Association on Record as Opposing Wilson Is Denounced by Some Members.
Atlantic City, N. J., Sept. 8.—The National Woman Suffrage Association today re-affirmed its policy of non-partisanship as an organization toward national political parties and defeated by an overwhelming vote an attempt to place the association on record as in favor of supporting the national candidates who pledge their support to the proposed equal rights amendment to the Federal constitution. The resolution which was introduced by Mrs. Raymond Robins, wife of the chairman of the last national convention of the association, was branded by some of the delegates as an anti-Wilson move, despite vehement denials by Mrs. Robins and others who signed the resolution.

LONG AND HEATED DEBATE

The resolution provoked a long and warm debate in which these denials were supplemented by declarations that the resolution was non-partisan and that it was not aimed at President Wilson. It had the aim of the association of the Federal amendment.

HEADLINE NON-PARTISAN ATTITUDE

After the Robins resolution was defeated, the convention adopted a resolution also stating that this policy did not preclude the right of any member of the association from working against the election of any candidate in states where they have the right to vote.

WOULD ABANDON FIVE CENT LOAF OF BREAD

Standardization of Ten Cent Loaf is Recommended

Economic Waste in Manufacture of Five Cent Loaf Given as Reason for Recommendation That it be Discontinued.
Chicago, Sept. 8.—Recommendations to all bakers of the United States that the five cent loaf of bread be abandoned and the ten cent loaf standardized, were made after considerable discussion at the session of the executive committee of the National Association of Master Bakers today. They argued that the recommendations be put into effect immediately.

PRESIDENT IN ADDRESSING 4,000 SUFFRAGISTS PLEDGES HIS SUPPORT TO THE CAUSE

Predicts Victory for Them "In a Little While"—"I Have Come to Fight With You," He Tells the Women, Who Stand and Cheer Him—Does Not Speak of the Method by Which He Thinks Woman's Ballot Should be Secured.

Atlantic City, N. J., Sept. 8.—Triumph for the woman suffrage cause "in a little while" was predicted by President Wilson here tonight in a speech before the annual convention of the National American Woman Suffrage Association. "I have come here to fight with you," the President declared. Immediately the 4,000 women present stood and cheered. A few minutes later Dr. Ann Howard Shaw, honorary president of the association, with Mr. Wilson still present, declared:

"We have waited long enough to get the vote. We want it now. I want it to come during your administration. Again the great audience of women stood and cheered, waving handkerchiefs. The President's pledge of support to the suffrage question caused Mrs. Carrie Chapman Catt, president of the organization, to say in a speech soon after he closed: "You touched our hearts and won our fealty when you said you had come here to fight with us."

TRAFFIC IN NEW YORK LITTLE INTERRUPTED

Offer Made to Take Back Car Men Who Quit the Union

Contest Has Developed Which, It is Said, May Decide Whether the City's Car Men Will Be Permitted to Organize.
New York, Sept. 8.—The second day of the strike of unionized employees of the New York City subway, elevated railway and surface lines brought little interruption to service, but developed a contest which, it was said, may decide whether the city's car men will be permitted to organize.

OVER \$1,500,000,000 IN APPROPRIATIONS

Expenditures of First Session of Sixty-Fourth Congress the Greatest in History

\$800,000,000 FOR DEFENSE

Many Important Laws Enacted at the Session Which Closed Yesterday. Summary of the Most Important Legislation.
Washington, Sept. 8.—The first session of the Sixty-fourth Congress which adjourned today was concerned chiefly with national defense. When the gavel fell Congress had directed reorganization and re-equipment of the army and navy for defense of the country at the unprecedented cost of \$655,000,000 with authorizations that will increase the total in three years to nearly \$800,000,000. With all other expenditures, appropriations were brought to the grand total of \$1,500,000,000, the greatest aggregate in the country's history and exceeding that for the last fiscal year by more than half a billion dollars.

OVER \$1,500,000,000 IN APPROPRIATIONS

Many Important Laws Enacted at the Session Which Closed Yesterday. Summary of the Most Important Legislation.

Washington, Sept. 8.—The first session of the Sixty-fourth Congress which adjourned today was concerned chiefly with national defense. When the gavel fell Congress had directed reorganization and re-equipment of the army and navy for defense of the country at the unprecedented cost of \$655,000,000 with authorizations that will increase the total in three years to nearly \$800,000,000. With all other expenditures, appropriations were brought to the grand total of \$1,500,000,000, the greatest aggregate in the country's history and exceeding that for the last fiscal year by more than half a billion dollars.

Expenditures, necessitated by preparedness and the calling into action of military forces to meet the Mexican emergency, demanded revenue legislation in the closing days of the session. Congress responded by doubling the normal tax on incomes, creating an inheritance tax, munitions tax and miscellaneous excise taxes to raise \$205,000,000 and by directing sale of \$130,000,000 Panama Canal bonds.

Congress established a Tariff Commission; a Government Shipping Board to rehabilitate the merchant marine; a Workmen's Compensation Commission to administer a new uniform compensation law; a Farm Loan banking system; a Child Labor law; enlarged the system of self-government in the Philippines and enacted many other important laws which had been contemplated by the administration.

The session was disturbed throughout by frequently recurring threats of foreign complications from the European war and imminence at one time of a diplomatic break with Germany; interference with American mails and commerce; invasion of American soil and killing of Americans by Mexican bandits, and danger of actual war with Mexico.

The crisis in Congress over the international situation followed Germany's naval order to sink armed belligerent merchant ships without warning. Introduction of resolutions warning Americans to keep off armed merchantmen caused President Wilson to halt diplomatic negotiations and go to the capital to demand a "show down."

The result was the tabling of the resolution in the Senate by a vote of 68 to 14, on March 5, and the McLeary resolution in the House by a vote of 276 to 142, on March 7. Immediately after the President sent to Germany and read to Congress a note threatening to sever diplomatic relations unless the German government immediately affected a modification of its submarine warfare.

Later in the session trouble arose in the Senate over the nomination of Louis D. Brandeis, of Boston, to succeed the late Justice Lamar as a member of the Supreme Court. Weeks of investigation and the deliberation of a Judiciary committee ended in confirmation of Mr. Brandeis by a large majority.

Most important legislative enactments of the session, exclusive of laws for national defense, included the following:
In the week before adjournment Congress was occupied with legislation which provided for a threatened nationwide railroad strike. President Wilson after futile negotiations with officials of the railroads and railroad brotherhoods submitted the controversy to Congress requesting legislation to avert the strike and to prevent such emergencies from arising in the future.

After a week of consideration, during which the President visited the capital daily conferring with administration leaders, a bill was passed to establish an 8-hour day as a basis for pay of railroad workers, the present rate of pay for ten hours work not to be reduced. The bill also provided for pay for work in excess of eight hours, pending an investigation by a special commission into the effect of the eight-hour day on railroad revenues.

CITY LEAGUE ON HOME STRETCH

W. L. I. Will Play Double Header This Afternoon With Giants and Immanuel.

While the eyes of the baseball world are turned toward the great three-corner race between the Robins, Braves and Phillies in the National and the Red Sox, Tigers and Pale Hose in the American League, the local enthusiasts have right here in Wilmington a race that for closeness, compares favorably with that of the majors.

The City League is now on its final lap, and only a scant one game separates the leading Giants from the tail end W. L. I., the Immanuel and Boys' Brigade being sandwiched in between. The .500 line. Although the scheduled season came to an end last week, all of the teams except the Giants have several postponed games to play off that will necessitate probably two more weeks of the season.

BURNETT MAKES BEST RECORD IN TRAP SHOOT AT ASHEVILLE

Asheville, N. C., Sept. 8.—At the first registered trap shooting tournament, under the auspices of the University Gun Club, held here today, Sanford Burnett, of Jefferson City, Tenn., won the board of trade cup for the high amateur average, breaking 135 out of a possible 145. The interstate trophies were won by W. W. Shemwell, Asheville, 124 out of 145; George S. Smith, Knoxville, Tenn., 123 out of 145; Fred W. Worsham, Knoxville, Tenn., 123 out of 145; Isaac Andrews, Spartanburg, S. C., 121 out of 145; John M. Morehead, Charlotte, N. C., 121 out of 145; Thomas A. Casetty, of Nashville, Tenn., led the professional with 133 out of 145 and Charles O. LeCompte, professional, of Asheville, scored 130 out of 145. Asheville scored long run, 52 straight.

CHARLOTTE WINS THIRD STRAIGHT FROM ASHEVILLE

Charlotte, N. C., Sept. 8.—A three base hit by Clancy in the fourth inning leading in Anderson from second scored the deciding run in Charlotte's third straight victory over Asheville in the post-season series to decide the championship of the North Carolina League. The score today was 3 to 1. Ferritt's four passes proving costly. All three games have been taken with a one run margin.

West to Again Win Golf Championship

CHICK EVANS AND ROBERT GARDNER, JR., BOTH OF CHICAGO, WILL FACE EACH OTHER IN FINALS TODAY

Philadelphia, Sept. 8.—The national amateur golf championship of 1916 is a prize assured for the west for another season at least as Charles Evans, Jr. and Robert A. Gardner, both of Chicago, won their way into the final round of the titular tournament on the courts of the Merion Cricket Club today and will meet for the championship tomorrow. Gardner defeated Jesse Gullford, the Massachusetts champion, 5 and 4, while Evans eliminated D. Clarke Corran, of Baltimore, 3 and 2.

This meeting will mark the first time a defending amateur champion has ever faced the amateur open title holder of the same season. "Chick" Evans, one of the three amateurs of recent years to hold the open honors, has the opportunity to capture two national championships in the same year, in Gardner he will meet a worthy adversary.

One of the best exhibitions of amateur play of recent years is expected tomorrow, for neither finalist was overworked in winning his way into the final, neither victor being closely pressed. The afternoon rounds were played in a gale of wind, thunder, lightning and heavy rain which drenched spectators, officials and the four competitors in the semi-final round.

Of the two, Evans had the harder battle in eliminating his opponent, for Corkran eliminating his opponent, for Corkran former made his final thrilling putt of more than 60 feet on the 32nd green. This play, the climax of the match between Evans and the Baltimore entrant, was the most thrilling of the contest. Evans overplayed the green on his second shot, landing on the very rim of the bowl while Corkran was but six feet from the pin with his third. After carefully sighting along the sloping turf Evans putted and the ball rolled swiftly to within three inches of the cup while the gallery gasped and then applauded as Corkran ran over and shook hands with his successful rival.

Gardner has shown wonderful ability to get out of trouble during the past two days' play and this, added to the way the "balls were rolling for him," expert put it, have made him practically invincible.

THE BATTING LEADERS.

BATTING AVERAGES . . . 5-xam

All of the big league batting stars, with the exception of Wagner were in action yesterday, the most notable performer being Speaker, leading the American League, who made four hits in five times at bat and increased his percentage four points. Cobb failed to get a hit in two times at bat and lost two points, while Jackson made three hits in five chances.

Chase maintained his lead in the National League by the narrow margin of one point when he failed to hit in three times at bat. Daubert, who played in only one of Brooklyn's two games, made one hit in two times and gained a point. Hornsby crowded Wagner out of third place in the National roster when he hit three times in four trips to the plate, and is one point behind Daubert. Robertson got back into the .500 class when he made three hits in five times up. Standings:

ALL NORTH CAROLINA INDIGO DYE WANTED

Proximity Mills Will Take All Farmers Can Furnish

Number of Morris Plan Banks in State Constantly Increasing—Charters Issued—Bigger and Better State Fair.

(Special Star Correspondence).
Raleigh, N. C., Sept. 8.—The Proximity Cotton Mills, at Greensboro, the biggest finishing and dyeing establishment in the State, has written Commission of Agriculture W. A. Graham, that the management is anxious to buy indigo dye stuffs that may be prepared in this State through the campaign for the cultivation of the indigo plant that the Department of Agriculture has carried on the past season and also whatever dye stuffs may be extracted by the people of the State from the wild indigo that is very profuse in the eastern and central sections of the State.

The department is in position to give definite directions for extracting the dye material from the indigo plant, wild and domesticated, and the Commissioner says it can be prepared with much profit at the prices for the dye material that now prevail on account of the loss of the import supply. He wants the canning club girls and others to turn attention to extracting the dye from whatever plants are available in their sections.

Morris Plan Progressing
Numbers of investment and banking corporations after what is known as the Morris Plan are being formed in various parts of the State, the latest being at High Point. The State chartered today the High Point Morris Plan Co., of High Point, capital \$50,000 authorized and \$7,000 subscribed by W. R. Morrow, A. S. Sherwood, J. J. Farris and others for a general investment

and banking business on a co-operative basis. Other new corporations chartered follow:
Twitty and Robinson, Inc., of Ruthersfordton, capital \$10,000 authorized and \$5,000 subscribed by J. C. Twitty, J. L. Robinson and others for a general chemical manufacturing business.
The Hinkle & Wheaton Co., Inc., of Charlotte, capital \$50,000 authorized and \$10,000 subscribed by G. F. Hinkle, R. M. Wheaton and others for a general motor vehicle business.
The Brothers and Sisters Aid Union, Edenton, chartered without capital stock for fraternal work.

Better State Fair.
Preparations for the great State Fair October 17-20 are going forward with a most auspicious swing now under the direction of Col. Joseph E. Pogue, the secretary. All departments of the fair promise to be bigger and better than ever before. President Tufts has induced the people of the Sand Hill section of the State to provide a special building for themselves at the State Fair, half of it to be devoted to special exhibits from that section and the other half to be used for judging live stock, an industry in which that section of the State is constantly more and more interested. The special building is to be 50x150 feet and will be of sheet metal sides and roof.

Bigger preparations than ever before are being made for the "Better Bales" show that has been a popular feature of the State Fair for three years past. There will be more attractive prizes and the accommodations will be a decided improvement over what this feature has enjoyed in the past.

The Hinkle & Wheaton Co., Inc., of Charlotte, capital \$50,000 authorized and \$10,000 subscribed by G. F. Hinkle, R. M. Wheaton and others for a general motor vehicle business.
The Brothers and Sisters Aid Union, Edenton, chartered without capital stock for fraternal work.

BETTER STATE FAIR.
Preparations for the great State Fair October 17-20 are going forward with a most auspicious swing now under the direction of Col. Joseph E. Pogue, the secretary. All departments of the fair promise to be bigger and better than ever before. President Tufts has induced the people of the Sand Hill section of the State to provide a special building for themselves at the State Fair, half of it to be devoted to special exhibits from that section and the other half to be used for judging live stock, an industry in which that section of the State is constantly more and more interested. The special building is to be 50x150 feet and will be of sheet metal sides and roof.

Bigger preparations than ever before are being made for the "Better Bales" show that has been a popular feature of the State Fair for three years past. There will be more attractive prizes and the accommodations will be a decided improvement over what this feature has enjoyed in the past.

THEATRICAL

The Vitagraph Blue Ribbon Feature, "Fathers of Men," presents a number of interesting scenes which show the mode of travel of the great Northwest. In this country the woods and mountains are almost impassable and without the use of dog sleds the section would not be habitable.

These dogs are hitched in numbers of ten, single file, to the sleds which serve as the only transportation the traders have from one post to another.

In "Fathers of Men," Director Humphrey has the original dogs which were engaged by the Vitagraph Company for this feature picture, and they do more than their share in lending realism to the scenes in which we have a glimpse of the great, vast and snowy wastes.

Starring in this six-act Blue Ribbon Feature is beautiful Naomi Childers, playing opposite Robert Edeson, one of Vitagraph's greatest stars, remembered for his great role in "The Cave Man." It is today's big feature at the Royal.

Charlie Chaplin at Grand. At the Grand today the world's greatest comedian, Charlie Chaplin, presents his third and greatest Mutual Chaplin comedy feature entitled, "The Vagabond," a Chaplin riot of mirth such as has never before been flashed upon a screen.

"The Vagabond" excels all past ef-

nounced "the best show of the kind that has ever toured the South." So the management wishes the better class of Wilmingtonians, who, for the past two years may not have been patronizing the Victoria theatre, to just take them at their word and see the opening show next Monday. Fifteen great musical numbers, several big vaudeville acts, good singing and dancing, with the latest song hits, are only a part of the show.

PRIMARY RACE TODAY CLOSE

Judge Winston or John H. Kerr to Be Nominated for Judge.

(Special Star Correspondence.) Rocky Mount, N. C., Sept. 8.—On the eve of the primary in the Third Judicial district, Judge Francis D. Winston, who spent a brief time in this city between trains today, appeared optimistic as to his chances of defeating Hon. John H. Kerr, though he admitted that the race was to be close and that while his opponent's friends had been very active he had continued about his judicial duties and there had been no campaigning in so far as he was concerned. The primary called tomorrow for the nomination of a judge necessitates voting in Hertford, Northampton, Bertie, Halifax, Vance and Warren and, according to all reports, there has been a general arousal of much interest for both candidates and the balloting will be heavy.

CHARLIE CHAPLIN
In "The Vagabond," at the Grand today.

forts of the million dollar comedian from every angle and standpoint and critics have been unanimous in pronouncing it the greatest yet. In two brimming reels, with the usual supporting cast, including his beautiful leading lady, Edna Purviance, Chaplin pulls some of the greatest stunts in the whole history of his career. Some of them are undeniably new and have never before been seen on a screen. And with all these are the usual Chaplin stunts, without which no Chaplin comedy would be complete.

In "The Vagabond" Chaplin plays the role of a wandering musician, and for the first time he brings into play his beloved violin about which so much has been heard since he became famous. Two reels of the greatest Chaplin stunts ever seen are guaranteed to every patron of the Grand today. And there will be other notable features to fill in and make the bill of the usual length.

At the Bijou today.

And whom do you suppose we have at the Bijou today? You'll be surprised for it's no one else than those great favorites Francis Ford and Grace Cunard, who have found enough time while making "Peg O' The Ring" to ease in a great two-reel feature for the benefit of patrons all over the land who worship them and anything in which they appear.

The title is "Brennon of the Moor," and it is a two-reel Irish drama written by Grace Cunard and produced by Francis Ford, starring them both together with "Daddy" Manley (the last picture he appeared in before his death), also Mrs. Manley, Harry Mann, Jack Francis and Olin Jackson. "Brennon of the Moor" has all the charm characteristic of the Irish people. Stories of Ireland are always popular and delightful simply from the very fact of their subject matter, but when the story is one of unusual sincerity and truthfulness such as this, the result is worthy of special featuring on its merits.

Billy Armstrong is featured in a great 1-2-3 score action on the big screen, entitled "A Double-Cross Cross" and then comes the Animated Weekly, featuring this week some of the greatest European war pictures that have yet been sent to America.

Don't miss today's great line-up at the Bijou.

Victoria Opening Monday.

Appetites are being whetted to a keen point in anticipation of the promises made by the Victoria management to give Wilmingtonians the greatest popular priced shows that have ever come to Wilmington, beginning Monday, and there will no doubt be capacity crowds present to witness the opening performances Monday afternoon and evening.

Before making these promises, in view of the past record of some Victoria attractions, the management was entirely and absolutely sure of its ground. There is no idle boast being made when a great show is guaranteed for next week, and for the weeks to follow. The show that opens Monday, Elsie Johnson and her Musical Vaudeville Company, has been seen both by a representative of the Howard-Wells Amusement Company, who operate the Victoria and by an agent of the Virginia-Carolina Vaudeville Association, with which the Victoria is affiliated. And after seeing it, it has been pronounced "the best show of the kind that has ever toured the South."

Bon Marche

Opposite Post Office

19c For Silk Gloves Regular \$1 Grade

\$1.00 Long silk gloves in black; special for today... **19c** pair (2 pairs to a customer)

Today Will be the Biggest Bargain Day the Bon Marche Has Had Since the Re-Organization Sale Began

You have seen bargains and special prices quoted and have no doubt purchased many of the articles that we have advertised up to this date.

Today we place on sale some values that have not been matched up to now, and we doubt seriously whether they will ever be equalled again in this city. These are facts and you have only to come in and see for yourself in order to prove our statement.

We wish to make the statement that some of the women of Wilmington are under the impression that all the goods we are selling at the present time are Polvogt's stock, but we found that it was absolutely necessary to bring in a few new goods, such as neckwear, waists, dresses and hosiery. We found this absolutely necessary as the stock was down to almost nothing and we wired our buyer last Monday to express us some values that we could close out at prices way below their present worth.

The goods that we have on special sale will not conflict with our new stock which will begin to arrive shortly.

We mention below the unmatched values that we have on sale today. We hope that we will have your presence in our store some time during the day.

\$9.95 for Silk Dresses That are Worth Up to \$25.00

These dresses were sent us the other day, picked up by our buyer in New York at a very special price. Thirty days earlier these dresses could not have been bought at wholesale for less than \$15.00. We ask you to come in and look them over even if you do not wish to buy. They are the newest style and we are sure that we will not have one left over by 12 o'clock today.

5c grade white embroidery cotton, special **3c** skein
69c for double bed sheets worth 85c each.
50c bunch for flowers that originally sold for 25c, 40c and 50c each.

Neckwear Specials

We have just recently received a large shipment of neckwear from New York which is composed of very good styles at the very low price of **19c, 29c and 59c**

15c stickerie braid, special at **5c** piece
50c NonSp, a liquid to use in place of dress shields, special at... **15c**
Double bed dimity spreads, size 82x90, special today for... **\$1.39**

\$1.00 and \$1.50 corsets in W-B and Nadia makes, special at **65c** each
4 Skirts left, the kind that originally sold for \$5.00; to close out today at **98c** each

Two Big Values in Coat Suits, \$1.98 and \$3.75

These coat suits are not the very latest style but they can be made over and give satisfaction to the wearer. They originally sold from \$15.00 to \$25.00; special today for **\$1.98 and \$3.75**

Millinery Cheap

In the millinery department we show some shapes, special at **5c, 10c and 19c**
Many of them sold up as high as \$2.00 and \$2.50.

Two Plume Specials, ... **48c and 98c**
These plumes may be had in several colors and they sold up to as high as \$5.00, \$6.00 and \$7.50.

A few \$6.00 sweaters left; special today at **\$2.50**
\$3.50 colored silk petticoats, special to close out today at **98c**
25c vests and pants; special today at **19c**

These are regular grade knit underwear and this price will be most welcome at this time.

One lot of remnants in laces and ribbons, many of them worth 35c, to close out at **3c** each
25c yard for nets and allover, many of them selling from 50c to \$1.00 per yard.

1c each for Home Journal patterns, the kind that sold for 10 and 15c.

Ten Evening Dresses, Special Today at \$4.98.

(See Window Display)

We have only ten of these \$20.00 dresses left and we are going to close them out cheap. Cost is no object and we therefore make this very low price of **\$4.98**. Be on hand at 9 o'clock in the morning and make your choice.

Waists at Extremely Low Prices 49c, 98c and \$2.48

We wired our buyer to ship us on a few waists as we did not have one waist left from the Polvogt Company's stock, having closed them out clean. These waists are unusual values for these prices and were bought with the idea of selling them out quickly. We are sure you will be unable to find one of these waists on hand at the store Saturday night when we close.

Long Kid Gloves at Special Prices Long Gloves at \$1.48, Regular Value \$3.50

These gloves were not bought special for this sale. They are the Polvogt Company's regular stock and sold here for \$3.00 for the 12 button length and \$3.50 for the 16 button length. You can buy as many pair today as you like at \$1.48 per pair. See window display.
48c pair for short kid gloves that sold at \$1.00 per pair.

These short gloves have imperfections in them, they are spotted and would be worth full value if it was not for this reason.

Silk Specials

\$1.00 and \$1.25 grade of silk, special today at **50c** yard
\$2.50 grade of broadcloth in blue and grey, 52 inches wide; special **\$1.33** per yard
One lot of trimmings worth up to 50c and 75c yard; special today **15c** yard
One special lot of silk hosiery, 50c grade, slightly imperfections; special today at **19c** pair
Four pairs limit to a customer.

48c for veils that sold up to \$2.00 and \$3.00 each.
\$2.00 grade of nainsook; special today **\$1.49** piece
36-inch line, 12 1/2c grade; special **8c** yard
18c cotton white crepe, special today at **10c** yard
50c grade Union suits; special today **35c**

This same Union suit will probably be sold at 59c in the fall.
35c white lisle hose, see window display; special at **25c** pair
Special lot of wool pants for women that sold from 50c to \$1.50 each; to close out at **10c** per garment
Parasol specials, \$5.00 and \$6.00 value; special to close out today at **98c**
Dainty trimmings in the way of ornaments that sold up to \$1.75; special today at **34c** each
Ribbons; special at **9c and 19c** yard
Lonsdale C. C. cambric; special today at **10c** yard
One lot of nets that sold at 75c to \$1.25 per yard; special today at **25c** yard

The specials that we are advertising today are really so cheap that many women think there is something wrong with them. We wish to assure you that if there is any damaged goods among them we will advertise them as such. We have our reputation behind this sale and we cannot and will not do otherwise than back up any advertisement we place in the papers.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily
newspaper in North Carolina, is pub-
lished daily and mailed to subscribers
outside the county at \$5 per year; \$3
for six months; \$1.50 for three months
or served by carrier in the city and
suburbs at 50c per month, or when
paid in advance, \$4.50 per year; \$2.50
for six months; \$1.25 for three months.
THE SUNDAY STAR, by mail, one year,
\$1.00; six months, 50c; three
months, 25c.

ADVERTISING RATES may be had on
application. Advertisers may rest
assured that through the columns of
this paper they may reach all Wil-
mington, Eastern Carolina and con-
tiguous territory. In South Carolina
and Georgia, the paper is carried by
special agents, and in other States
communications are made by mail.

A few years ago newspapers and
printed matter generally, regardless of
their character, had free access to the
United States mails. Today they are
barred out unless they comply with
the law, and in some particulars they
are restricted as to the nature of the
reading matter and the advertisements
they contain. Advertisements of lot-
teries, chance and gambling enter-
prises have long since been barred out
by the Federal government, and even
in North Carolina the forces are mov-
ing for a State law barring liquor
advertisements from all publications.

We don't know of a one which pub-
lishes such advertisements, and there
is no public necessity to stop such
advertisements, but the Legislature
which meets in January will be asked
to prohibit by law the publication of
liquor and dope advertising matter.

Of course, publishers, recognizing
the law of humanity and morality,
personally bar deleterious or objection-
able advertising as a matter of prin-
ciple, but the Anti-Saloon League is
agitating the enactment of a statute
to prevent even the privilege of pub-
lishing such advertisements. Those
urging the passage of such a law de-
sire legislation to prevent even the
possibility of publishing liquor adver-
tisements, which is now a privilege en-
tirely optional with publishers, but
which privilege is ignored by them on
moral and public welfare grounds.

One of our great unrestricted priv-
ileges today is that we can jump over-
board or poke our heads in the fire, but
for obvious reasons those are utterly
negligible reasons, so there is no use
of passing laws restricting those priv-
ileges. There are laws against attempts
at suicide but none that reach a suicide.

At the same time, nobody cares how
many laws are passed to regulate neg-
ligible privileges. All privileges that
we do not take advantage of or that
are of no use to us are not worth two
cents to us. Therefore, nobody cares
what the lawmakers do to such priv-
ileges. One of our negligible privileges
is the publication of liquor advertis-
ing, but editors don't care a straw
for any such privilege. High minded pub-
lishers want a barrel full of clean
money, but if nobody wants to pass
a million dollars of money on them, it
will either have to be laundered or
passed up in gold that isn't tarnished.

At the same time, the people might
take a notion that publishers and ed-
itors must be regulated like such ob-
noxious things as trusts and combines,
which have acted so common as to get
all of us into trouble. If we are not
for national integrity, civic righteous-
ness, social justice and square deals,
we ought to be swatted and tied out
where we can not exploit one another,
such as the Republican party stands
for in providing legislation so one
bunch of us can get all that is coming
to us out of the whole bunch. For that
reason the Republican party also has
to be regulated itself and put out of
business on account of such immor-
ality as enacting legislation to enable
a few to levy tribute on the toiling
masses of the people. However, they
put it on the patriotic plea that it is
all to the good for "American indus-
tries" and lots of folks believe it is so
when they ought to know that their
stocks and bonds and securities consti-
tute the stakes for which the big gam-
blers play every day on the stock ex-
change.

Of course, the interests are kicking
against regulation and the G. O. P. is
kicking against being regulated by the
people. However, the publishers of
the country seem to be the only ones
who are not kicking against whole-
some regulation. We all ought to be
regulated in the interest of society
and the public welfare, provided, the
whole thing can be proved. Neverthe-
less, the regulation idea can be carried
too far as a political ploy instead of a
public safety and public integrity
proposition. North Carolina publishers
are showing no signs of kicking against
being regulated, but they had better
look into the provisions of all bills that
the Legislature is asked to pass at its
approaching session. They may be all
right, but that is not a matter to be
taken for granted. Privileges are hard
to get back once they are taken away.
Of course, it is all right to be regu-
lated right.

It is hardly necessary to explain that
out of deference to public sentiment
in North Carolina the publishers of this
State have voluntarily sacrificed the in-
come from liquor advertising. That
makes North Carolina an unusually
lucrative field for papers published in
"wet" States to carry car loads of such
advertising and flood North Carolina
with their papers by any sort of means
they can gain circulation here, even at
reduced rates or practically no rates

HAVE YOU BEEN REGULATED?

Many Americans who are strongly
opposed to the encroachment of gov-
ernment upon business are themselves
forcing the issue by their own acts.
It is a "gradually progressive process"
which will sooner or later wind up all
of us as a common ball of yarn made
from end to end of one string. If we
are not careful, all interests in this
country will constitute the string.

Even newspaper publishers hardly
stop to realize that the National and
state governments have reached out
and made several crimps in their pris-
tine privileges. Newspaper owners,
publishers and editors must be known
and there is a law to get at the person
or persons and corporate owners upon
whom to fix responsibility. Newspapers
are not made today with the unlimited
freedom of old. Publishers have to
report to the government along several
lines.

Among the millions who are glad
that the threatened railroad strike was
averted are the business men and all
other people who could not afford
such a stupendous calamity. Some say
it was "averted at any cost," but even
that was small compared with the cost
of letting the strikers and the rail-
roads tie up every line of business in
America.

It ought not to appeal to one's intel-
ligence to hear denunciation of the
emergency action taken by Congress to
prevent such a calamity by almost any
means. The majority of Democrats
and Republicans in Congress agreed,
four to one, on that proposition. The
people certainly ought to let it go at
that. The Democratic and Republican
statesmen of America were on the job
and it is hardly to be supposed that
they were fools enough to fold their
hands and let 103,000,000 people take
chances on a nation-wide strike that
would have been insurrectionary, rev-
olutionary and absolutely dangerous to
every interest in this country.

We are told that the Adamson-Kitch-
in bill, as passed by an overwhelming
vote, meant that "the humiliation of
Congress was complete." Who says so?
That does not make a particle of
difference, just so the sayer does not
know what he is talking about. Those
who say it think they know more than
the whole of Congress. Do you believe
they do? We don't. Indeed, if Con-
gress actually permitted itself to be
humiliated, it offered itself as a great
sacrifice in the interest of the people
of America. Such a sacrifice as that
by the people's representatives in be-
half of the people may call for a crown
of thorns—but not at the hands of the
people.

Congress acted under its solemn re-
sponsibility to the people. It's critics
are responsible to nobody. They are
responsible only for loose talk. Those
who repudiate the means taken by
Congress to avert the strike simply
repudiate President Wilson, the Demo-
cratic majority in Congress, the Re-
publican majority in Congress and the
whole shooting match. We don't see
how an ordinary man can have enough
confidence in his own wisdom to set it
up against the ablest men sent to Con-
gress from 48 states of the American
Union. Don't you know they don't be-
lieve that on themselves?

The people don't have to care two
straws about the Adamson-Kitchin
bill or the humiliation of Congress,
but they are bound to be profoundly
grateful that the strike was averted,
regardless of what Tom, Dick or Harry
says. Those boys are liable to say any
old thing.

Now that the people are glad that
the monster strike was sidetracked by
some hook or crook, all the people
have to do is to feel sorry for Con-
gress for being humiliated—that is, in
the minds of our astute friends and ac-
quaintances, Hon. Tom, Hon. Dick and
Hon. Harry.

at all. So far as it goes, and that is
pretty far in some sections, the sacri-
fice of North Carolina publishers is
rendered void of effect because out-
side publishers are reaping a harvest
from the field which North Carolina
publishers have conscientiously aban-
doned.

The proposed new law is designed to
prevent the circulation in this State of
papers carrying liquor advertising,
aimed primarily and almost solely at
the papers published in other states,
and not at North Carolina papers. That
is the reason North Carolina papers are
not kicking. Other "dry" states have
had such laws in effect for quite a
while. However, it is well for pub-
lishers to safeguard their interests by
seeing to it that regulation does not
assume a different scope.

THE PEOPLE ON TRIAL

One of the most impressive and
thought-provoking points made by
Hon. Thos. W. Bickett, in his address
in Wilmington Wednesday night, was
that which he made in the closing mo-
ments of his speech when he advanced
the idea that in the approaching elec-
tion the American people will be on
trial.

His position is that in the November
election the people will be put to the
test as to their ability to appreciate a
President who has sought throughout
his administration to serve them; who
has maintained peace with honor and
saved the country from the maelstrom
of war that has brought this country
several times to its very verge; who,
with the support of a Democratic
Congress, has taken the reins of gov-
ernment and the purse strings of gov-
ernment and the purse strings of gov-
ernment out of the hands of a small group of autocrats of
wealth in Wall Street—what prior to
1913 could and did start a panic at will
and usually did so when anybody in
power at Washington spoke or acted
in a manner to incur their displeasure
—and placed those reins and purse
strings in the hands of the people and
the people's representatives at Wash-
ington.

Mr. Bickett would not have gone far
wrong if he had made his position
stronger by asserting that, with such
a record as that made in the last four
years by Wilson and his administration
and a Democratic Congress on the one
hand, and the record of Republicanism
on the other, to choose between the
polls in the forthcoming election—one
a long record of financial and other
legislation in behalf of the few power-
ful individuals and against the inter-
ests of the millions of people, and the
other a record of financial and other
legislation in the interest of the peo-
ple—the election on November 7 will

It is a pretty crucial test when the
people have laid before them a record

even more than that?

FAVORS ALL FOUR

I strongly favor the four proposed
constitutional amendments. The rights
and duties of municipal and private
corporations will be better understood
and much expense will be saved to the
corporations and to the State if amend-
ments 1, 3 and 4 are adopted.

When I was a practicing lawyer I
was often painfully impressed and an-
noyed with the want of common sense
displayed in our court system. The
second proposed amendment will reme-
dy one defect. No business man stops
his operations because of the sickness
of his manager, when a substitute can
easily be found. Why should the State
waste its money and subject its citi-
zens to serious losses because of the
sickness of a judge when it is easy to
supply his place.

One of the speakers at the National
Woman Suffrage Association yesterday
referred contemptuously to the Presi-
dent's willingness to recommend Wom-
an Suffrage to the people of the several
states and said, "It might turn out as
it did when he recommended it to his
own state of New Jersey." Quite true,
it might. And why shouldn't it if the
people of a state do not want Woman
Suffrage or are not ready for it? Who
has a better right to say who shall vote
in New Jersey than the people of New
Jersey, or in New York than the people
of New York? Yet the Suffrage Amend-
ment is a scheme to enable the legisla-
ture of Nevada to say who shall vote
in New Jersey and the legislature of
Utah to say who shall vote in New

RECORD BROKEN AT WARSAW.

150,000 Pounds Tobacco Sold at Average
of 20 Cents in a Day.

(Special Star Correspondence).
Warsaw, N. C., Sept. 8.—The largest
sale of tobacco of the season took place
here on Thursday, when 150,000 pounds
were sold at an average of 20 cents
per pound, the highest price paid being
50 cents per pound. By 8 o'clock in the
morning, both warehouses were com-
pletely surrounded by vehicles—wagons
and carts that had been used in bring-
ing the tobacco to town—and yet for
several hours, they continued to come
until entrance to the warehouses was
completely blocked, and passage to and
from them was made with difficulty.

"Yer can't git in thar," said one grin-
ning colored farmer, who had made the
trip to town in the wee sma' hours and
consequently was among the first to ar-
rive at the warehouse and get his crop
on the floor. But nothing daunted, his
not so lucky companion continued, and
in due time was accommodated. The
sale continued practically all day, a
re-drying plant has been added to
Carter's warehouse, which facilitates
the handling of the weed. Such prices
as are being paid this fall have never
been known here before since the open-
ing of the market.

GREAT DAY FOR DEMOCRACY

IN THE COUNTY OF FENDER
Hon. T. W. Bickett Makes Great Speech
Before Large Audience.

(Special Star Correspondence).

BURGAW, N. C., Sept. 8.—In his ad-
dress here yesterday, Hon. T. W. Bick-
ett fully sustained his reputation as a
forceful and entertaining orator. His
speech was really educational, as he
outlined what the Wilson adminis-
tration has done, using numerous illus-
trations to prove the points. His expo-
sition of the Federal Reserve Bank-
ing act and how it had released the coun-
try from the control of Wall Street was
particularly clear and convincing.

He also dwelt on the Farm Loan act
and showed its advantages to the far-
mer. He showed how Secretary McAdoo
had prevented the New York bankers
from forcing a panic in 1914, after the
European war had broken out. He
showed where the farmers had received
more recognition and had passed more
laws in their interest during this ad-
ministration than they had had in 50
years.

It was a pity that every voter in the
county could not have been here to
hear the speech, as it would have
enlightened them on many things of
which the average man is ignorant.

After the speaking a splendid old
fashioned barbecue was served on the
ground and everybody went away fill-
ed both intellectually and physically.
It was a red letter day in the history
of the Democratic party in Fender
county. The day was beautiful after
so much dry weather during the week
and the people came in from every
direction to hear Mr. Bickett. He ar-
rived at 9:30 from Wilmington
and went to the hotel for rest un-
til 11:30 when he was taken to the
court house, where a large crowd had
already assembled.

John T. Bland, Jr., Esq., chairman of
the Democratic county executive com-
mittee, in a very happy and appro-
priate speech introduced Mr. Bickett as
the next governor of North Carolina.

HEALTH IS WEALTH

by John B. Huber, A.M., M.D.

To be free-minded and cheerfully disposed at hours of meat and
sleep and of exercise, is one of the best precepts of long lasting.—Lord
Bacon.

The Farmer Gets The Square Deal.

THE milk pail required by the company we mentioned yesterday
has a small opening, and is covered—by which fact in itself
three-fourths of the dirt is excluded from the milk. Moreover,
the milkers soon find it to their advantage to wipe the udders
and teats, before milking, with a damp cloth in order to keep their
bacterial counts down.

Next consideration: The milk is brought promptly to the dairy,
where it is handled with care and expedition. It is strained, cooled
at once, then filled into clean and sterile bottles, which latter are then
fed, shipped to town in refrigerator cars. Daily samples of both
morning and evening milkings, are taken from each farm for bac-
teriological and chemical analysis. As the Homer farmers live nearby
the dairy, they may bring their morning's milk a few hours after it is
obtained; it need therefore not be fed by the farmer; and this is done
for him at the dairy. The evening's milk, however, must be cooled
and led in order to keep the bacteria from multiplying.

The farmer gets the square deal from the company; and the
company expects the square deal from the farmer—that is the gist of
Dr. North's plan. The doctor, though not a business man, has never-
theless had the presence to see, as did Adam Smith more than a
century ago, that the most profitable and the most satisfactory business
method is that by which everybody, all around, becomes satisfied, and
enthusiastic to hand out to the ultimate consumer the best, possible
product. The farmers about Homer first went into this new arrange-
ment with skepticism and doubt. Now there is mutual confidence
between them and the company—in consequence of which on the one
hand these farmers join in their work and are more than willing for
sanitary suggestions, whilst on the other hand the metropolis is assured
from their farms every day some six thousand quarts of clean, sweet
wholesome milk.

THE SENSE OF SMELL.

Answer to G. C. O.: To test the
smelling function non-irritating sub-
stances must be used; suitable odor-
ous bodies are musk, oil of cloves
or peppermint. The perception of
any single odor is lost in from 3 to
4 minutes; but is regained after one
minute of rest. It is necessary that
the odoriferous material should enter
the nostrils as a vapor or in the
state of division. The act of smell-
ing is usually assisted by sniffing,
which is a modified inspiration. It
is also necessary that the mucous
membrane of the nose be moist; other-
wise the odoriferous particles will not
enter in solution on the surface of
the mucous membrane.

THE OPEN MOUTH.

Answer to B. C.: If the lips are
open, especially if they are dry and
blue, there is shortness of breath
due either to chronic heart disease
or to some such pulmonary trouble
as asthma or emphysema. The open
mouth may be due to disease within
the mouth, such as inflamed tongue
or tonsillitis, or to some form of
stopped up nose, such as catarrh or
bony growth. If the lips are loose
and pendulous, hanging down, one
thinks of diphtheritic or other kind
of paralysis. The open mouth is
seen also in all conditions of great
prostration, in idiots and in some
cases of insanity.

THE VON PIQUET METHOD.

Answer to G. M.: This is the
most satisfactory of the tuberculin
tests for detecting tuberculosis; it
is most efficacious in infants and chil-
dren. Two small drops of old tu-
berculin (Koch's) are placed on the
skin of the forearm, about two
inches apart, and the skin is slightly
scarified, first at a point midway
between them, and then through
each of the drops. In about ten
minutes the excess of tuberculin is
gently wiped away with cotton. No
bandage is necessary. A positive
reaction (indicating tuberculosis) is
shown by the appearance within 24
hours of a pin head spot with a
red areola, or halo which contrasts
markedly with the small red spot
left by the control scarification.

WILL ERECT BUILDING FOR PUBLIC MEETINGS

Scott's Hill Farmers Working for Community Development

Enthusiastic Over Proposed Packing House for Wilmington—Will Organize First Credit Union in New Hanover.

The first essential for building up any community, according to those who have studied the question, is to have a place where all the people, regardless of religious belief or political opinions, may come together to discuss affairs of common interest. Realizing the need of such a place, the members of the Farmers' Union local at Scott's Hill, in New Hanover county, completed negotiations yesterday for the purchase of a lot, opposite the railroad station in that town, on which will be erected a structure for holding public meetings of all kinds.

In addition to maintaining a splendid school and other civic enterprises, the farmers and business men of this community have recently inaugurated a movement for the organization of a Credit Union, the first to be established in New Hanover county, and on next Friday night it will be formally organized by the election of officers. The organization meeting was to have been held on last Tuesday night, but had to be postponed because of the inclement weather.

Mr. T. Culbreth, station agent for the Atlantic Coast Line at Scott's Hill, who has been prominently identified with the movement for establishing a Credit Union, said last night that already about 20 stockholders have been secured with the promise of a number of others. Behind the movement are Messrs. L. Cavil, J. H. Souterland, W. T. Canady, V. R. Siderbury, G. A. Huggins, R. C. Murray, W. F. Mitchell, G. A. Huggins, Jr., Wm. H. Huggins, J. M. Walker, E. L. Foy, R. E. Bryan, J. W. Foy and Dr. F. L. Brown.

Mr. W. R. Camp, of Raleigh, superintendent of credit unions in North Carolina, who recently attended a meeting of the citizens at Scott's Hill, will be present at the organization meeting on next Friday night. Mr. Camp was very much impressed on his last visit with the spirit of progress around Scott's Hill and declared that in his opinion it was going to take its place as one of the best in the entire State. Incidentally, Mr. Camp remarked that if every railroad station agent in the South was as active in promoting the building up of his community as is Mr. Culbreth, at Scott's Hill, the railroads would be able to double their business within a decade. "My hat is off to him," declared Mr. Camp, as he spoke enthusiastically of what is being done by the people of that village.

While actively promoting everything that will make for the betterment of their community, the people of Scott's Hill have not neglected the material side of the development of the entire surrounding country, including Wilmington, if they are to prosper. On Thursday night of this week an enthusiastic meeting was held at which Mr. John W. Greer, who is working in behalf of the packing house in Wilmington, made an able address explaining how this institution would prove a great benefit to them. He was warmly welcomed and a number of those who attended have subscribed for stock in the enterprise. Others from Wilmington present at the meeting included Messrs. I. W. Cooper and W. A. McGirt.

"All the members of our local union are very much interested in the proposed packing house in Wilmington," said Mr. J. T. Culbreth, the secretary of the organization, last night, "and we want to see this thing through. We are willing to do all we can not only by taking stock in it, although we will not be able to take very much, but also by giving it our loyal support."

The president of the Scott's Hill union is Mr. R. L. Foy and he and the other members are very enthusiastic over the prospects of having a central place for the meetings of the organization. With the lot already purchased, active steps will be taken immediately towards erecting a building. This building will be two stories in height, the second story being used as an auditorium for holding meetings of various kinds. It has not yet been determined what will be done with the first floor of the new building, but it has been suggested that it might be used for a co-operative store.

YOUTHFUL BURGLARS CAUGHT

Were Making Away With Plumbing Fixtures From No. 414 Chestnut. George Evans and William Cooper, pickaninies, whose ages are somewhere in the early teens, are locked up in the police station, as a result of a little freighting operation they went on yesterday morning.

Having discovered that a residence at No. 414 Chestnut street was temporarily vacant, they effected an entrance, unseen by any one, and at once began to take stock of their surroundings. They saw nothing that especially struck their fancy, but just in order to keep in practice, they began to make arrangements to get away with some plumbing fixtures that they had discovered.

Unfortunately for them, however, a little colored girl, employed by the absent owner of the house that they were pilfering, happened to come along, and attracted by the voices of the youthful plunderers, called the police. Policeman J. S. Lane and Mr. G. B. Applewhite, who had the house in charge as rental agent, accompanied by County Officer H. Mack Godwin, went to the scene just as the boys were making their getaway. One of them was captured just beyond Fifth street, but the other gave them a chase being finally overhauled at Sixth and Chestnut streets.

TO HOLD MEETINGS

Evangelist M. W. Huggins, of Dunn, to Preach at Wrightsboro.

Evangelist W. M. Huggins, of Dunn, will begin a series of meetings at the Wrightsboro Baptist church on Sunday night which will continue for ten days. Evangelist Huggins comes highly recommended as a preacher of unusual power and eloquence and Rev. W. B. Riverbark, the pastor of the church, expects great good to result from his preaching. All Christian people of the community are invited to attend the services.

LARGE TRACT OF LAND SOLD

Mr. D. L. Gore Acquires Possession of Seven Hundred Acres—Other Real Estate Transfers.

Mr. D. L. Gore has purchased a tract of 774 acres of land in Masonboro township, lying along the Cape Fear river near Tar Kiln Landing and adjoining Barnard's creek, from Mr. Owen Martindale, according to a deed which was filed for record yesterday. While the consideration is not stated, it is understood to have been between \$3,000 and \$4,000.

Another deed filed for record is for the transfer of nine acres of land in Masonboro township on the Cape Fear river, north of Barnard's creek, from J. B. Brinkley and wife to Mr. D. L. Gore. Other deeds filed for record yesterday were as follows:

Manhattan Company to L. E. Marquis, for \$100 and other considerations, lot at Carolina Place.

P. F. B. Price and wife to Sam M. Brooks and wife, for \$100 and other considerations, lot on the east side of Seventh street, 33 feet north of Kidder, 33 by 80 feet in size.

J. H. Hinton and wife to U. A. Underwood, for \$100 and other considerations, lot in "The Bronx."

The following deeds were filed Thursday in the office of the Register of Deeds: Southeastern Realty Company to Paul H. Gray and wife, property on 18th street, consideration \$1,000; the Manhattan Company to L. G. Bennett and wife, property at Hudson Drive and the Shell road, consideration \$100; E. A. Chadwick to Sarah Duglin, property on Brunswick street, consideration \$10 and other valuable considerations.

NO DECISION AS YET

Recorder Still Withholds Judgment in Case of J. R. Kennedy.

The only case of interest at yesterday morning's session of the Recorder's court was that of J. R. Kennedy, Esq., president of the Wilmington Stamp and Printing Company, and William Hawes, a colored drayman who were charged with violating the city ordinance by scattering paper on the streets.

It seems that Mr. Little employed Hawes to haul a quantity of bales of waste paper from the Wilmington Stamp and Printing Company's office on Second street to the railroad tracks for shipping. According to the evidence, the paper was fastened with three wire hoops to each bale, and as the wind was blowing pretty strong, loose pieces of paper were scattered over the street. Hawes was charged with being the principal in this act, while Mr. Little was held as accomplice. After a spirited debate Recorder Empe saved the defendants from further embarrassment by rendering a verdict of not guilty.

Ethel Stringfield and Mag Flowers, two dusky belles, were arraigned on a charge of engaging in an affray with a deadly weapon. Mag was found guilty while Ethel had judgment suspended on payment of the costs. Lewis James, colored, drew down four months on the road for carrying a piece of pocket artillery concealed on his person.

WILMINGTON MAY HAVE

ANOTHER MILITARY UNIT

Lieutenant Cantwell Says Probable Recruit Company May be Transferred.

In all probability Wilmington will have an additional military company when the members of the North Carolina National Guard, now encamped at Camp Glenn, are transferred out of active service, according to Lieut. Paul L. Cantwell, who is now in the county to secure additional recruits from this city. The Wilmington man is a commissioned officer in the Recruit company and as it has been a hard matter for that place to keep its unit up to the standard enrollment, it is not improbable that this company will be transferred to Wilmington.

Lieutenant Cantwell said that there are about 35 Wilmington men in the Recruit company and a number of other local men in other companies at Camp Glenn. This would afford a fine nucleus from which to enroll enough men to make a company of sufficient proportions to give it high rank in the State Guard. All of the men from this city who enlisted in the North Carolina brigade are signed up for three years of active service and three years of reserve duty.

As all the men now at Camp Glenn are thoroughly drilled and well organized, it is not the intention of the War Department to discharge them from active service but to make provisions, if possible, to keep them actively organized.

NEGROES STAGE FIGHT

Employees of Orton Hotel Engage in Brawl at Union Station.

William Spalding and Bruce Leak, two colored employees of The Orton hotel, engaged in a fight under the shed at the Union Station shortly after 8 o'clock yesterday afternoon. Leak is confined at police headquarters on a charge of assault with a deadly weapon, Spalding alleging that he attempted to assault him with a wrench. Little was to be learned of the cause of the trouble. Leak was employed by the hotel in the capacity of a bus driver, while Spalding was the station porter. No officer was present when the difficulty took place, but Spalding made complaint shortly afterward to Plainclothes Officer J. O. Bullard, who had the warrant issued.

BOLD BURGLARY COMMITTED

Robber Entered Brightly Lighted Dwelling of Mr. Matthews Last Night—Obtained \$8 in Cash

One of the boldest burglaries which has occurred in Wilmington in many months was pulled off last night about 7:30 o'clock, when a burglar climbed up the steps leading to the back porch of the home of Mr. L. P. Matthews, 19th and Perry avenue, and from there entered Mrs. Matthews' sleeping room, where he pried open her trunk with an old file and secured about \$8 from a pocketbook in the trunk.

At the time the robbery occurred, many of the rooms of the house were brightly lit by electric lights. Little Miss Rosella Matthews, 8 years old, had been playing the piano downstairs. She early in the evening, something and on passing her mother's room saw a man's bulky form moving across the room. She could not tell whether it was a negro or white man. The little girl immediately reported her discovery to Mrs. Matthews, who was in the room across the passageway from the room which was robbed. She had been waiting for the arrival of the physician who had been called in to treat a member of the family who was taken ill.

Thinking that perhaps her little daughter might have been mistaken in saying that there was a man in the house that early in the evening, Mrs. Matthews stepped across the hall and switched on the electric light. It was immediately plain that a burglar had in reality been in the room, for the trunk had been pulled open from the wall and its lock pried open with a heavy file, which Mrs. Matthews recognized as being one which had been lying about the kitchen for some days past.

Upon looking in the trunk for her pocketbook, it was discovered that its contents consisting of about three dollars in bills and about five dollars in silver had been stolen. Presumably the robber made his escape in the same manner in which he entered, a window out on the back porch having been left open at any rate.

Mr. Matthews was not at home at the time of the robbery, but came in a few minutes after the police arrived on the scene. Sergeant Grimley and Officers Applebury, Bullard and Thompson investigate the robbery but were unable to get any clue as to the identity of the burglar.

This is the third robbery which has taken place on this street within about three weeks. About that length of time ago, the residence of Mr. Alex Palmgren was entered and a large quantity of silverware stolen, and the residence of Mr. Chas. R. Suggs was entered and a small sum of money stolen.

CAN YOU ANSWER THIS GREAT

QUESTION OF LOCAL INTEREST?

Why Does Weather Man Carry an Umbrella After Predicting Fair Weather?

While the people of Wilmington have been worrying their own brains, trying to find a solution to the strike problem, the war situation, and the rights of woman suffrage, there is right under their noses a problem that is as far from solution as any of the National issues.

What it more it is strictly a local question, and one that either directly or indirectly affects almost every child and dog in the city of Wilmington. Then, too, it is one that must be solved by psychological reasoning, and not by the mere formulation of plans and schedules, as is the case with the National problems.

The question is this: Why do the members of the Wilmington weather bureau insist on walking down the street with an umbrella tucked under their arms, on days for which the forecast absolutely fair weather? Can you answer that? True, you might say that the biographies of all the leading characters in history prove that a man of office is a man of eccentricities, or in other words that a man is of some note, that he can safely do things that in other people would not be tolerated.

Admitting that this will be an excuse for the weather man, the prophet is a man of genius—does it stand to reason that every member of the bureau is a genius? It is a rare thing, you know, when a collection of geniuses are gathered under one department and it is quite true that every member of the local bureau pulls that umbrella stunt.

Here they will come along about a 9 o'clock in the evening and hand an announcement that the following day will be one of the type that gave inspiration to the writer of "Twain's End of a Perfect Day" and then in the mid-afternoon of this advertised perfect day they will stroll along the sidewalk with a big umbrella under their wing, while the trustful public, which has accepted their prediction at its face value moves along clad in palm beachers, with no umbrella near enough to be found with a search warrant.

Whatever the true solution is, here is one (whisper it) that is advanced by a close friend of one of the local thermometer jugglers, once upon a time when all the world and the weather prophet too, were young, he once predicted rain for three successive days, and went out armed to the teeth with overcoats, raincoat and umbrella, only to be greeted by the most serene and beautiful days that he had ever had the privilege of enjoying. Three days, now mind you, he did this and for three days the sun greeted him with a pitying smile.

At last he thought he would be justified in predicting fair weather, so the next day he left his umbrella at home and—got caught in a downpour, the like of which he had never seen before. So now when he goes out after receiving his instructions and forecasts from Washington, he goes prepared for any emergency, for while he realizes that figures don't lie, his experience in the weather bureau has taught him that in certain departments of the government at the National capital at least, that liars figure. So while he doesn't tell the public about the doubts he has as to his superior's veracity in regard to weather conditions, he goes on the principle of "Safety first."

DR. AKERMAN GOES TO AUGUSTA

Prominent Wilmington Physician and Surgeon Accepts Call to Georgia University

Dr. Joseph Akerman, for the past fourteen years one of Wilmington's leading physicians and surgeons, making a specialty of the latter branch of his profession, has decided to give up his extensive practice in this city and on or before the first of October will leave for Augusta, Ga., where he has accepted a very attractive offer from the Medical Department of the University of Georgia to become a member of its faculty and to have charge of the extensive hospital maintained in connection with this institution.

It is wholly unnecessary to say that Wilmington will give up Dr. Akerman with regret, but his hosts of friends at the same time will congratulate him upon this call to a sphere of greater usefulness and promise. Dr. Akerman will probably leave for his new field within a week or ten days but it will be about the first of October before he will remove his family to Augusta. Dr. Akerman's removal to Georgia will be something in the nature of a homegoing for him in that he originally lived in that state and now has a number of relatives residing there.

Dr. Akerman came to Wilmington in 1902 to become superintendent of the James Walker Memorial Hospital of this city, remaining in that capacity for four years, bringing the hospital through the experimental stages and establishing the ground work for its present influence and usefulness in the community. His administration of the affairs of the hospital was of a high standard, and his work while there was so notable, especially in surgery, that he was induced to take up private practice in the city in 1914, remaining in the private practice, with the exception of a single year when he was called again to the superintendency during the year 1915, lately again having resumed his private practice. His professional career in Wilmington has been notable and in diagnosis and surgery he has been recognized as among the ablest. He was frequently called into consultation and his professional ability was not only recognized by the laity but by physicians and surgeons as well. His removal to Augusta will be a distinctive loss to the city.

Dr. Akerman had also served the city as superintendent of health, administering the affairs of that office with distinction and satisfaction to the people at large. He has been prominent in the church life of the city and for a number of years was a ruling elder of St. Andrew's Presbyterian church, having lately affiliated actively with the work at the Peasall Memorial Presbyterian church in East Wilmington, where his interest and work was notable and of great service to that community.

COURT NOX PROSSES-SUIT

Justice McGowan Finds Mr. Krahnke Not Guilty of Value.

After hearing the evidence as to the loss of about \$5 in money and a gold watch, which Mr. F. H. Krahnke, Jr., said was taken from his clothes in one of the dressing compartments of the Tidewater Power Company's train, Justice W. A. McGowan decided yesterday afternoon that the Tidewater Power Company was not responsible for the loss and directed that the case be dismissed.

Mr. Krahnke said that he went to Lumina to take a surf bath but that instead of leaving his valuables with the man, who is kept there for that purpose, he left them in his clothing which were in a dressing compartment. When he returned he found the clothing and watch were gone, but the money and watch were gone. He reported the matter to Mr. W. B. Savage, who was in charge of the pavilion. He suspected a man of having taken the valuables and this was proved by the fact that on not to push matters by Mr. A. B. Skelding, general manager of the Tidewater Power Company, and others, who stated that they would use their best endeavor to secure the watch and money.

It was the contention of the Tidewater representatives that Mr. Krahnke was guilty of negligence in that he failed to avail himself of the facilities provided for taking care of valuables and that, therefore, the Tidewater Power Company was not responsible for the loss. This was the view of the court and the case was accordingly not pressed.

COURT CONVENES MONDAY

Judge George W. Connor, of Wilson, Will Preside.

The September term of Superior court for New Hanover county will convene at 10 o'clock Monday morning, Judge George W. Connor, of Wilson, presiding. The criminal docket, for the term, is comparatively light, and it is expected that it will be cleared in three days. There are at present 11 prisoners, all of them colored, in the county jail, who will face trial at this term of court.

One of the most important cases that will come up is that of Gladys Davis and Lizzie Cole, two colored women charged with forcing an entrance into the home of Walter Henry, colored, on the night of July 15, and carrying away some pots, pans, and some cooked food.

There are also several negro children who are to be tried on various charges. Two of the charges against them are that of entering the home of Deputy Clerk of Superior Court W. H. Northrop, at Carolina Heights, and stealing a number of articles, while Northrop and his family were living on the beach, and also for stealing a pistol and clothes from the home of a Chinese farmer in Love's Grove.

SOLDIERS CAPTURE MENAGERIE

Thirty-First Company Brings Back Some Interesting Specimens.

The latest additions to the animal population of Wilmington is a collection of animals brought back from the Mexican border by the soldiers of the Thirty-first company of Coast Artillery, who returned from Del Rio, Texas, Thursday morning.

The collection includes a young wild cat, which has become rather tame, several brown squirrels and an assortment of horned toads. They have been one exhibition at the New Way market.

TO BE YEAR ROUND RESORT

Graystone Inn at Carolina Beach to Remain Open Through the Winter.

Graystone Inn, the handsome hotel at Carolina Beach, is this year to enjoy the dual role of being a summer and winter resort. Although the official season closed Labor Day, Messrs. Pate and Loughlin, promoters of the resort, have decided to keep the hotel open throughout the year.

While this is the first venture of this kind in the vicinity of Wilmington, it is expected that the fine fishing and hunting that is to be had in the vicinity of Carolina Beach will make it a success. In addition to these attractions, the Carolina Beach Gun Club will make it more attractive to the lovers of trap shooting.

WILL BE THE TALLEST CHIMNEY IN WILMINGTON

Tidewater Power Company Will Make Addition to Power Plant Here.

There will be no danger of sparks from the new chimney which the Tide-water Power Company will erect at its power plant in Wilmington as it will extend its towering height for a distance of 150 feet towards the blue sky and will be the tallest in the city. The new chimney is made necessary by reason of the fact that two addi-tional boilers are to be installed at the plant, making eight in all. The addi-tional equipment is made necessary be-cause of the increasing demands for electric power.

The capacity of the present boilers is 1,584 horse power while the new boil-ers will each have a capacity of 244 horse power, making a total of 2,112. In order to provide room for the two new boilers it has been necessary to enlarge the present boiler room. The work has been done by Tidewater workmen.

The contract for the erection of the new brick chimney which will be 30 feet higher than the present one and the inside diameter of which will be eight feet has been awarded to Custodis Chimney Construction Company, of New York, who make a specialty of this kind of work. The work is to be com-pleted by November 1st.

SLIGHTLY COOLER YESTERDAY

Temperature Was Only 87 at Its Max-imum—Fair Today.

While yesterday was by no means a cool day, it was a great deal more comfortable than Thursday. While the thermometer was hovering around 92 Thursday the best that it could do yester-day was 87. According to the pre-diction for today, moderate west and southwest winds will make the tem-perature slightly lower. It is expected that today will be generally fair.

During the past few days warm weather has prevailed over a large area, with the mercury playing around in the vicinity of 90. The plains states have not suffered as much as have the Northwest and Lake regions.

The bakers went on record strongly against any attempt to lower the qual-ity of bread.

The conference here was an out-growth of the bakers' national conven-tion at Salt Lake City several months ago, at which informal resolutions to the same effect were voted. Already the price of bread has been advanc-ed, or the five cent loaf abandoned, in several cities. At one time there were threats of a government investigation of a concerted movement to increase the price.

GRAND CIRCUIT MEETING AT HARTFORD COMES TO AN END

Hartford, Conn., Sept. 8.—The Grand Circuit meeting at Charter Oak Park closed today with three events over the new half-mile track. All were won in straight heats. Walter Cox celebrated his 48th birthday anniver-sary by winning the 2:30 trot, with Busy Lassie, never being pressed at any stage.

The Hartford Road Drivers' Club special was notable for the number of breaks made. "Pricco Worthy," a bay gelding by San Francisco, outclassed the rest of the field.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tonic" Is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are slug-gish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dod-son's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vege-table, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dod-son's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and mak-ing you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Lumberton, N. C., Sept. 8.—Indica-tions tonight are that tomorrow will be one of the biggest days in the his-tory of Robeson county Democracy. Thousands of people from every quar-ter of the county are expected to be here for the big Democratic rally, which will be featured by an address by Governor Stuart, of Virginia. Pre-pareations have been in the making for weeks with a view to making the oc-casion one of the biggest of its kind since the days of Vance.

and methods by which it is to prevail. It is going to prevail, and that is a very superficial and ignorant view of it which attributes it to the mere social unrest. It is not merely because the women are discontented. It is because the women have seen vision of duty, and that is something which we not only cannot resist, but if we be true Americans, we do not wish to resist. Because America took its origin in visions of the human spirit in aspirations for the deepest sort of liberty of the mind and of the heart and as visions of that sort come up to the sight of those who are spiritually-minded in America, America comes more and more into her birthright and into the perfection of her development.

"So that what we have to realize in dealing with forces of this sort is that we are dealing with the substance of life itself."

To Fight For Suffrage.

"I felt as I sat here tonight, the wholesome contagion of the occasion. Almost every other time that I ever visited Atlantic City I came to fight somebody. I hardly know how to conduct myself when I have not come to fight somebody, but with somebody. I have come to suggest, among other things, that when the forces of nature are steadily working and the tide is rising to meet the moon, you need not be afraid that it will not come to its flood. We feel the tide; we rejoice in the strength of it, and we shall not quarrel in the long run as to the method of it. Because when you are working with masses of men and organized bodies of opinion you have got to carry the organized body along. The whole art and practice of government consists not in moving individuals but in moving masses. It is all very well to run ahead and beckon, but, after all, you have got to wait for them to follow. I must not come to ask you to be patient because you have been, but I have come to congratulate you that there was a force behind you that will, beyond any peradventure, be triumphant and for which you can afford a little while to wait."

WILL BROADEN USE OF THE MAIL CENSORSHIP

(Continued From Page One.)

into the new development will express that feeling.

A brief preliminary note was received July 26, but it was inconclusive. It is pointed out that the war has changed the attitude of the public in flat contradiction to that expressed by Lord Robert Cecil, minister of trade, and reiterated emphatically in his statement August 25, saying:

"It cannot be emphasized too strongly that the general and statistical information extracted from trade letters which has proved so invaluable to his majesty's government in checking the supply of material sent through neutral to enemy countries and suppressing the export of enemy goods is said for there purposes solely and never for the purpose of substituting allied trade for neutral."

Lloyd George's statement arose, not in connection with the enemy trade or imports from neutral countries to neutral countries, but entirely in regard to an attempt to build up a protective tariff wall from a neutral country. Some days before Andrew Bonar Law had requested a two-pound export tax on palm nut kernels from British West Africa to all places but England, where a no windustry had been built up to replace the lost German markets. During his argument he said that information contained in the censored letter of a neutral oleomargarine manufacturer indicated that the war had come from that source and that the export tax would be necessary to preserve the industry to the country.

Later a member of Parliament asked Lloyd George whether he was aware that "when the censorship was instituted, we were told it was definitely and solely for the object of preventing information getting to the enemy which would be of advantage to them and that otherwise the freedom of discussion and the secrecy of correspondence would not be infringed." The war minister replied that he did not know what principle was laid down, but that the government could not through neutral to enemy countries and suppressing the export of enemy goods is said for there purposes solely and never for the purpose of substituting allied trade for neutral."

CONSIDER THE COMPLICATED SITUATION ALONG THE BORDER

Schemes Discussed by Joint Commission Apparently Unsatisfactory.

New London, Conn., Sept. 8.—Painstaking consideration of the complicated situation along the international border marked today's session of the American-Mexican joint commission, many schemes for co-operative military patrol, for exchange of information and for otherwise frustrating the outlaw element of northern Mexico being discussed. Apparently none seemed entirely satisfactory and when the commission adjourned tonight, to meet again Monday, it was intimated that broader plans than any presented thus far, might be worked out.

American members of the commission did not hesitate to describe the plan being framed as a substitute for existing conditions on the border, inasmuch as its adoption meant the withdrawal of General Pershing's force from Mexico. Two of the Mexican commissioners, Luis Cabrera and Alberto Pani, left for New York tonight.

(Special Star Correspondence.)

New Bern, N. C., Sept. 8.—After deliberating for two hours, the jury in the case of State vs. Jones, taken up at Wednesday's session of Craven county Superior court, in which the defendant, who is a resident of the Maple Cypress section of the county, was accused of the murder of George Tate, his uncle, yesterday afternoon returned a verdict of not guilty and Jones was released.

This case has been one of unusual interest. The homicide took place last year and Jones claimed that he shot his uncle in order that his own life should be protected, he believing that the elder man was intent on killing him.

Much testimony was introduced to show that this was the case in the case and the jury was convinced that the fatal shot was really fired in self-defense and brought in a verdict of acquittal.

GENERAL EXODUS OF MEMBERS BEGINS AS CONGRESS ADJOURNS

(Continued From Page One.)

vainly to get into the statute books before adjournment.

"Epoch-making," says Kitchin, Representative Kitchin, majority leader of the House, and chairman of the Ways and Means committee, who was not always in accord with the administration on the national defense legislation, said before leaving the capitol today:

"We have put through more constructive legislation than any other session of Congress. It has been accomplished with good feeling all around. There has been less bitterness and less filibustering in this session than in any previous session. It is in my recollection. On the Democratic side we have had united action and the session has been eventful and epoch-making."

The Republicans, pointing to the appropriations and authorization for the future, mounting to two billions, closed their part of the session reiterating charges of extravagance and waste.

WHEAT PRODUCTION LOWEST SINCE 1900

(Continued From Page One.)

matoes made a month ago are: Oats 43,000,000 bushels; barley 11,000,000 bushels; buckwheat 1,300,000 bushels; rice 1,400,000 bushels; cotton 1,100,000 bales; and the 1,900,000 barrels, and peaches 2,400,000 bushels.

Record Tobacco Crop

While cereals all suffered serious damage during the month, hay and tobacco prospects increased and the harvest of those two crops and also of rice will be record breaking. There was an increase of 27,000,000 pounds in the indicated production of tobacco, making a crop of 1,224,000,000 pounds and exceeding the former record crop of 1910, by 121,000,000 pounds.

Hay production is forecast at 86,200,000 tons, which is 1,800,000 tons more than forecast a month ago and 1,000,000 tons more than last year's record crop.

Estimated Production

	For-	Crop
Winter wheat	455	655
Spring wheat	156	357
All wheat	611	1,012
Corn	2,710	3,055
Oats	1,231	1,540
Barley	184	237
Rye	41.9	49.2
Buckwheat	15.8	15.8
White potatoes	31.9	35.9
Sweet potatoes	49.3	74.3
Tobacco (lbs.)	1,224	1,061
Flax	14.9	13.8
Rice	32.8	35.9
Hay (bales)	862	85.2
Cotton (bales)	11.8	11.2
Apples (bbls.)	67.7	76.7
Peaches	36.9	63.5
Sugar beets (tons)	7.66	6.51
Kaffir	74.7	114.5

Production figures for winter wheat, rye and hay are preliminary estimates.

Comparison of the September with the August production forecast indicates the changes in prospects caused by weather and other conditions during the month of August.

SCHOOL FOR DRAMATISTS.

Cyril Maude's Pet Project Has Been Started in London.

(From the London Globe.)

We notice that a school for dramatists has been opened in London by a greatly daring spirit. This has been a pet project of Cyril Maude for some time. It is quite 10 years since this writer had a little chat with Mr. Maude, in which he outlined a scheme for a college for teaching playwrighting.

The idea was certainly a fascinating one, as set forth by the actor-manager who pointed out that people were taught acting, which is a precarious and disappointing business; whereas, he said, the rewards of an even moderately successful playwright are eminently satisfactory.

OCTOBER 21-22 ARMENIAN AND SYRIAN RELIEF DAYS

President Also Designates November 1st as Lithuanian Relief Day.

Washington, Sept. 8.—Proclamations were issued today by President Wilson designating October 21 and 22 as special joint days on which funds will be solicited from the American people for relief of starving Armenians and Syrians in the war zone, and November 1 as a similar day for contributions for the Lithuanians.

FULTON DECLARED WINNER

Given Newspaper Decision in Ten Round Bout With Dan Flynn.

St. Paul, Minn., Sept. 8.—Fred Fulton, of Rochester, Minn., aspirant to the heavy-weight championship title, was given the newspaper decision in a 10-round bout with Dan (Porky) Flynn, of Boston here tonight. Fulton led in all but the third and fifth rounds, which were even.

MAY NOT CHANGE POLICY England Not Likely to Comply with Request as to Blacklist

London, Sept. 8.—"It is not likely that Great Britain will change her blacklist policy at the request of the United States," said Lord Robert Cecil, minister of war, in discussing today the possible effect of recent American retaliatory legislation.

To the Associated Press, Lord Robert stated that a reply to the blacklist made by the United States may be expected soon.
